Correctness: 8 / 10

Explanation: 2 / 5

Alt Data Defs: 2 / 5

### Design Feedback:

data design

- missing template robot and direction'

function Spec

-robot-forward: strategy wrong

-robot-moveup : data decomposition on what?

## Implementation

- robot-moveup : cond inside a inside

at multiple places you are using one cond inside another,

function becomes complex

## Style

warning:text limit for 80 characters should be followed in a line

Explanation Feedback:

```
def1 pros are missing
```

def2 is missing
